Mini Project Report on

“SMART ONLINE JOB PORTAL WITH RESUME BUILDER”

Submitted in partial fulfillment of the requirements for the
Second Semester of the Bachelor of Engineering Degree, towards the completion of the **Mini Project** under the **Innovation & Design Thinking Laboratory**, Department of Basic Sciences.

DEPARTMENT OF BASIC SCIENCES

CERTIFICATE

This is to certify that the File Structures mini project entitled “SMART ONLINE JOB PORTAL WITH RESUME BUILDER” has been successfully carried out by, R RAGHU PAUL (1CR25EC161) , R V RUBITHA(1CR25EC162) , SNEHA G UPPALADINNI(1CR25CS181) and SOAIB SAHEB (1CR25CS182) bonafide students of **CMR Institute of Technology**.

The project is submitted in partial fulfillment of the requirements for the First Semester of the Bachelor of Engineering Degree, towards the completion of the Mini Project under the **Innovation & Design Thinking Laboratory, Department of Basic Sciences**.

It is further certified that all corrections and suggestions indicated during the Internal Assessment have been duly incorporated in the project report submitted to the departmental library. This File Structures mini project report has been reviewed and approved as it satisfies the academic requirements prescribed for the said degree.

ACKNOWLEDGEMENT

I sincerely express my gratitude to **Dr. Sanjay Jain**, Principal, CMR Institute of Technology, Bangalore, for providing a supportive academic environment.

I extend my thanks to **Dr. Raveesha K H, HoD, Dept. of Physics, CMRIT** for his valuable guidance and support.

I am especially grateful to my internal guide, **Prof. Ruma Debnath, Department of Electronics and Communication Engineering** for her constant encouragement and guidance throughout this project.

I also thank all the faculty members, non-teaching staff, and others who contributed directly or indirectly to the successful completion of this work.

R RAGHU PAUL (1CR25EC161) and

R V RUBITHA(1CR25EC162) ,

SNEHA G UPPALADINNI(1CR25CS181) and

SOAIB SAHEB (1CR25CS182)

Abstract

The Smart Online Job Portal project is a web-based application designed to simplify and modernize the recruitment process for both job seekers and recruiters. The main objective of the project is to provide an efficient digital platform where users can search for jobs, apply online, upload resumes, and track application status, while recruiters can post job openings and manage candidates.

The system is developed using HTML, CSS, and JavaScript with LocalStorage support for backend simulation. The portal provides separate interfaces for job seekers and recruiters, enabling easy interaction between employers and applicants. Users can search jobs based on category, location, skills, and experience.

The project focuses on providing a user-friendly interface, responsive design, fast performance, and secure data handling. The system reduces the complexity of traditional recruitment methods and provides a centralized platform for employment opportunities.

Overall, the Smart Online Job Portal demonstrates the practical implementation of web technologies in solving real-world recruitment and employment challenges.
